

EUR Cloud Reporting for BroadSoft

Avotus Intelligent Communications Management – Enhanced Usage Reporting (ICM EUR) is the voice management solution that provides an accurate and comprehensive view of your corporate voice assets and usage. Providing you comprehensive, real-time Call Detail Record (CDR) tracking and accounting, ICM EUR increases your usage reporting capabilities enhancing data collection, visibility and ultimately savings.

Avotus' EUR Cloud Reporting for BroadSoft

Avotus' 2015 INTERNET TELEPHONY Product of the Year, ICM EUR, has been customized to meet the specifications of BroadSoft users and is now available in the BroadSoft Marketplace.

**Intelligent Communications Management Enhanced Usage Reporting*

An advanced usage management tool, Avotus' EUR Cloud Reporting for BroadSoft delivers organized, comprehensive and detailed visibility and reporting on an organization's communications spend across wireline, wireless, VoIP and legacy voice platforms. Using business intelligence gathered from ICM EUR customizable reports, telecom administrators, IT, finance and other business units can analyze, track and manage communications expense and associated assets across all corporate platforms. These assets can include both traditional and non-traditional telecom assets.

Avotus EUR Cloud Reporting for BroadSoft is also capable of consolidating call records from BroadSoft BroadWorks and legacy PBXs, providing clients with multiple PBX installations a path to seamlessly transition to BroadSoft BroadWorks with zero loss of call management features and functions.

Because the Avotus EUR Cloud Reporting for BroadSoft is cloud-based, there is minimal investment required to utilize the application and no associated infrastructure costs. What's more, the platform allows for quick and efficient onboarding of end-users.

Key Avotus EUR Cloud Reporting for BroadSoft capabilities include:

Traditional call accounting (CDR reports)

Wireless reporting (Mobility)

Telecom cost allocation (across departments & usage types)

Compliance and auditing – "Lookup" type detail reports

Asset Management

Telecom traffic and engineering statistics reports

Emergency and threat call response

Potential fraud prevention notifications

Compliance with state, provincial, municipal or local data retention policies

Assistance for Law enforcement investigations

Respond to litigation

RISK FREE ENGAGEMENT

ICM delivers our “Cleanse it – Buy it Smart – Keep it Clean” philosophy, which is the optimal way to manage telecom and technology investments.

Enterprises struggle to keep telecom budgets reasonable, while simultaneously maintaining a high level of service and updated infrastructure. Doing so effectively means examining the overall need and spend, and uncovering areas for potential opportunity and savings. Avotus serves as a valuable partner by enhancing these efforts with our unique software and passionate subject matter experts.

Avotus makes this process easy and affordable. Our ICM suite of services is designed to save you money and create an immediate positive return on investment. Our proprietary technology uncovers opportunities, provides pricing transparency and optimizes network performance on an ongoing basis. This unprecedented level of automation, control and transparency is key to realizing long-term cost savings while, empowering enterprise clients in their interactions with large carriers.

What's more, the savings realized through implementing just one of Avotus' service ultimately is designed to fund the next engagement. This step-wise process ensures that our ICM suite maximizes savings while meeting internal budgets.
