

## **Avotus Corporation Joins the Cisco Developer Network as Registered Developer and Completes Cisco Interoperability Verification Testing**

**Mississauga, Ontario– July 13, 2010** – Avotus Corporation announced that it has joined the Cisco Developer Network as a Registered Developer within the Unified Communications technology category. In addition, Avotus's ICM UM 7.3, has successfully completed interoperability testing with [CISCO Unified Communication Manager, 7.1](#).

The [Cisco Developer Network](#) unites Cisco with third-party developers of hardware and software to deliver tested interoperable solutions to joint customers. As a Registered Developer, Avotus Corporation offers a complementary product offering and has started to collaborate with Cisco to meet the needs of joint customers. With offerings such as Avotus ICM UM 7.3, customers can more quickly deploy a broad range of Cisco Compatible business applications, devices, or services that can enhance the capabilities, performance, and management of their Cisco network. Additional information on Avotus ICM UM 7.3 interoperability with CISCO Unified Communication Manager, 7.1 is available on the Cisco [website](#).

### **About Avotus**

Avotus is the leader for groundbreaking technology-based total telecom cost management (TTCM) solutions. The company has a 20-year history of empowering companies of all sizes to gain lasting control over their complete worldwide communications environment through the effective management of their voice, data and converged communications spend.

Only Avotus brings together e-Procurement, expense, and usage management into a fully integrated solution. Avotus provides dramatic and verifiable cost savings of as much as 50% of an enterprise's current communications spend and a triple digit in-year ROI.

Avotus offers the widest, deepest and most flexible solution set available including an onsite enterprise implementation, a hosted Application Service Provider (ASP) model, and a completely outsourced value-added managed solution.

Avotus provides customers with 30% - 48% savings off their auctioned telecom spend in less than 3 months, cuts invoice processing cost to as little as 5 days and improves dispute recovery rate to 97%.

\* Interoperability testing is designed to simulate typical customer configurations, and does not replace the need for on-site testing in conjunction with actual implementation.
