

Rates and Tariffs via the Web

1. The web client is located at <http://www.avotus.com/avotusrates/>
2. We have designated the customer # number or in some cases the Serial number as the **Login ID**.
3. For the **Password** the key code is required. The format is uppercase and included all spaces.

Please note that the Serial Number and Keycode can be found on the front of the products CD jewel case or the packing slip.

The screenshot shows the AVOTUS Client Services web interface. At the top left is the AVOTUS logo. To its right is the tagline "Helping reduce voice & data network costs" with "reduce" and "costs" in yellow. Further right is a dark blue box with "Client Services" in white. Below this is a light blue login area. On the left, there are two callout boxes: "Customer or Serial Number" pointing to the "Login:" input field, and "Keycode" pointing to the "Password:" input field. The "Login:" field has a "Login" button below it. To the right of the login fields is a section for "US Customers: Check for Local Carrier Rate availability: Enter your area code and exchange:". It contains two input fields for area code and exchange, and a "Check" button. A callout box on the right explains: "US customers can verify, without logging in, the Local Carriers available within a specific Area Code and Exchange." Below the login area is a dark blue bar with the text "North American Rates Updated January 2015". At the bottom center, there is a copyright notice: "Copyright © 2015 Avotus Corporation. All Rights Reserved." A callout box on the right points to this notice and states: "The last update of all available North America Rates and Tariffs."
