

## Avotus Reporting adds Unimax Operational Management systems to deliver the most comprehensive telecom MACD solution

**Mississauga, Ontario— Sep 27 2018: Avotus Corporation**, the award-winning provider of Intelligent Communications Management solutions, today announced it has partnered with Unimax – an industry leading Unified Communications Operational Management software provider.

This partnership synergy will allow Avotus to deliver the most powerful telecom multi-platform management and reporting system in the industry. Avotus will sell and support Unimax 2nd Nature solution, the telecom industry's leading multi-platform centralized management and administration interface.

Jayraj Chheda, Avotus CEO, added "We are very pleased to include Unimax's 2nd Nature solution to our telecom MACD portfolio. This makes Avotus a one-stop shop for all of its clients' telecom management needs."

Unimax systems make it far less complex and costly to manage and administer PBX and voice messaging systems while delivering better internal service levels. Unimax provides a UC Management Software Suite with tools for provisioning, employee self-service moves, adds, changes, and deletes (MACDs), help desk agent MACDs, automation (i.e. automated provisioning/de-provisioning), phone number and DID management, system migrations (between Cisco, Skype for Business, Avaya/Nortel, etc.), unified MACD administration and more for single and multi-vendor communication environments.
